

Lala Janki Dass Jain
(1916-2005)

masterly crafted tools for every hand...

The Group was founded by Late Shri Janki Dass Jain in 1959. A humble start at Ludhiana (India) has now turned into a leading stationery manufacturing organisation.

A wide range of Tackers and Heavy Duty Staples, Cutters, Tape Dispensers is manufactured in house.

Competitive advantage comes from the dedicated R&D centre at New Delhi. Products are developed under strict supervision of over 100 technocrats and highly skilled people, engaged in developing new designs and concepts, particularly taking care of ergonomics. It is equipped with latest technology and infrastructure.

Unique selling proposition comes from manufacturing quality products while keeping the costs to minimum. The domestic market is catered by Sales & Marketing network spread all over India. In addition to Home & Office's, consumers include Corporates, Government Sectors and Educational Institutes. The products are kept in outlets with "Face on Display" helping consumers to identify the best at a single glance.

Exports constitute a considerable share of the total volume. The products are marketed worldwide, through international exhibitions in Brazil, China, Germany, Japan, Russia, USA etc., and are being exported around the globe.

Performance oriented approach has brought several laurels to the Group. Our company has been honoured with "Export Excellence Award" every year. The company has been certified ISO 9001 by TUV Suddentschland, Germany.

Continuous development has helped the organisation to grow so far and the same approach continues...

HOW TO SELECT CORRECT LEG LENGTH

The leg length of staples should be chosen such that the leg is 2½ times longer than material (M) being used.

M=Material
L =Leg length of staples
